From My Heart...

"Chuck Swindoll wrote "The Clock that had a Nervous Breakdown." This new clock was ticking away on the shelf two ticks to the second as any good, self-respecting clock should tick when it began to think about how many times it was going to have to tick. "Two ticks to the second means 120 ticks per minute," it mused. "That's 7200 ticks per hour, 172,800 ticks per day, 1,209,600 per week for 52 weeks, and a total of 62,899,200 per year." Horrors! Straightway the clock had a nervous breakdown.

The clock was taken to a psychiatrist who patched up the mainspring as well as he could then asked, "Clock, what's your trouble?" "Oh, doctor," wailed the clock, "I have to tick so much. I have to tick two ticks a second and 120 ticks per minute and 7200 ticks per hour, and," "Hold it," the psychiatrist cut in, "How many ticks do you have to tick at a time?" "Oh, I just have to tick one tick at a time," was the reply. "Then let me make a suggestion," replied the doctor. "You go home and try ticking one tick at a time. Don't even think about the next tick until it's time. Just tick one tick at a time. That you can do."

Faith is ticking one tick at a time. Knowing that God will give us strength for the next tick. According to 1 Peter 1:8 we can have a "joy unspeakable and full of glory." Yet just like those oppressed and persecuted Christians to whom Peter was writing, we need to remember that this joy will never come through external stimuli, only through our internal mind set—one of faith—one of ticking one tick at a time, knowing that God will give us strength for the next tick.

When we look back at what God has done at Woodland Hills, it makes us want to shout and praise God! When we look at what is happening now, it makes us want to shout and praise God! BUT, when we look at what God might want to do in our future... we begin to shake and doubt and fear. That's not from God.

God has been faithful in the past, and He will continue to be faithful in the future. We have seen him accomplish a great deal, and you as a church have been faithful. God has orchestrated it, but you have played your instrument and been faithful. It only stands to reason, God is going to do greater things in the future. That will require faith and being able to "take one tick at a time."

It's amazing to see what God has done...is doing...and catch a glimpse of what He wants to do in the future.
